Training & examination in 3 days

Practice examination

Excellent first attempt pass ratio

Understand how to apply the core concepts of Managing Successful Programmes (MSP®). Prepare to achieve MSP Practitioner qualification.

Introduction

The Managing Successful Programmes (MSP) guidance explains the programme management principles, governance themes and transformational flow that should be applied to the management of programmes or transformational change in any environment.

The purpose of the MSP Practitioner qualification is to determine whether a candidate has sufficient knowledge and understanding of the MSP guidance to apply the guidance to their own work and, hence, act as an informed member of a programme management team. That is, someone responsible for managing, leading, supporting or advising on work within an MSP environment.

Learning Objectives

Candidates need to exhibit the competences required for the foundation qualification and show that they can apply the MSP guidance in a programme within a programme environment. Specifically, successful candidates should be able to:

> Identify additional value as a result of managing the described change as an MSP programme

> Explain and apply each of the MSP principles, the governance themes and the transformational flow processes and their activities

> Explain the relationship between the MSP principles, governance themes, the transformational flow, programme information (documents) and the MSP defined programme management roles

> Produce and evaluate examples of MSP programme information (documents).

Contents

Recommended Participants

Project managers, BCMs, experts and advisers working within a programme office and other specialist/governance roles involved in supporting programmes following the MSP guidance together with those wishing to pursue higher level qualifications (e.g. programme managers). This level is also suitable for senior responsible owners (SROs).

Prerequisites

The MSP Foundation qualification is a pre-requisite for the Practitioner qualification.

Course Format

The course uses a stimulating mix of instructions, quizzes, workshops, discussions, practice exams, and a certificate exam. **Note**: 2 to 3 hours of evening work would be required for examination preparation.

Duration

3 days, including certification examination on the last day.

Materials Provided

❯ Training reference manual containing copy of course slides, support documents, quizzes and answers
❯ Practice examination
❯ Management of Portfolios book published by TSO in 2011
❯ Training certificate
❯ Exam certificate on passing the examination

Practice Exam

A 2.5-hour practice exam is part of the course. The practice exam aims to help participants in passing the MSP Practitioner certification exam.

Certification Exams

A 2.5-hour certification exam is scheduled on the last day of the course, consisting of 8 objective questions carry 10 marks each. Candidates must achieve 50% marks (40 out of 80) to receive their examination certificate. This is an open book exam (official MSP guide only).

Reference Material

This training is based on the publication, "Managing Successful Projects with PRINCE2", Published by AXELOS & TSO (The Stationery Office) in 2017.

B Business Beam

# About Business Beam
