Highlights

Experienced & accredited trainers

Approved training material

Based on PMI's Standard for Portfolio Management

35 contact hours

Practice examination included

Excellent first attempt pass ratio

Learn how to manage multiple, related projects in a coordinated way, achieving benefits that could not occur if the projects were handled separately. Prepare for PMI's PgMP qualification.

Introduction

The Program Management Professional (PgMP®) Boot Camp training course is designed to equip professionals experienced in the principles of program management with the knowledge required to successfully pass the PgMP® certification exam. As a globally-recognized credential, the PgMP® demonstrates your proficiency in managing multiple, related projects to advance organizational strategic goals and objectives. This training course is aligned with PMI's The Standard for Program Management, Fourth Edition and the PgMP® Examination Content Outline.

Learning Objectives

Candidates should expect to gain competencies in the following areas after successful completion of the training course:

- › Defining the standard criteria management for successful projects
- › Establishing program development
- › Identifying and managing the unsolved project-level issues
- › Monitoring of human resources required during a project
- › Executing project management programs
- › Developing program and project management standards

 - ▶ Program Definition Phase Activities
 - ▶ Program Delivery Phase Activities
 - ▶ Program Closure Phase Activities
- **Examination Review**
 - ▶ PgMP application process
 - ▶ Exam tips and tricks
 - ▶ Practice Examinations

Recommended Participants

This course is designed for professionals who want to learn program management practices and aim for Project Management Institute's Program Management Professional (PgMP) certification.

Prerequisites

Knowledge and experience of portfolio management will be helpful, but not necessary.

Course Format

The course uses a stimulating mix of instructions, quizzes, workshops, discussions and practice exam.

Duration

4 days

Materials Provided

- › Training reference manual containing copy of course slides, support documents, quizzes and answers
- › Practice examination
- › Training Certificate

Practice Exam

A four-hour practice exam is part of the course. The practice exam aims to help participants in passing the PgMP certification exam.

Certification Exams

Certification examination is NOT part of this training course. Examination candidates must apply at the PMI website, and receive authorization for the examination. Examinations are held at designated Prometric centers only.

The PgMP® examination consists of 170 multiple-choice questions. Of the 170 questions, 20 are considered pre-test questions. Pre-test questions do not affect the score but are used in examinations as an effective and legitimate way to test the validity of future examination questions. All questions are randomly placed throughout the examination.

- › Total examination questions: 170
- › No. of scored questions: 150
- › No. of pre-test (unscored) questions: 20
- › Allotted examination time: 4 hours

Reference Material

This training is based on the Standard for Program Management, 4th edition, published by the Project Management Institute Inc. published in 2017.
