Training in 2 days

100+ practice questions

**Learn globally accepted The Open Group
Architecture Framework for Enterprise
Architecture and prepare for the
Foundation-level qualification.**

Introduction

The Open Group Architecture Framework (TOGAF) is quickly becoming the default starting point for Enterprise Architecture (EA) work within enterprise organizations across the spectrum. With a comprehensive methodology, toolset, architectural assets, content framework, and certification program, it is no wonder that enterprises are turning towards TOGAF for their EA framework of choice.

The purpose of certification to TOGAF 9.1 Level 1, known as TOGAF 9 Foundation, is to provide validation that the Candidate has gained knowledge of the terminology, structure, and basic concepts of TOGAF 9, and understands the core principles of Enterprise Architecture and TOGAF. The course also enables participants to successfully complete the associated TOGAF Level 1 exam.

Learning Objectives

Individuals certified at this level will have demonstrated their understanding of:

- The basic concepts of Enterprise Architecture and TOGAF
- The core concepts of TOGAF 9
- The key terminology of TOGAF 9
- The ADM cycle and the objectives of each phase, and how to adapt and scope the ADM
- The concept of the Enterprise Continuum; its purpose and constituent parts
- How each of the ADM phases contributes to the success of enterprise architecture
- The ADM guidelines and techniques
- How Architecture Governance contributes to the Architecture Development Cycle
- The concepts of views and viewpoints and their role in communicating with stakeholders
- The concept of building blocks
- The key deliverables of the ADM cycle
- The TOGAF reference models
- The TOGAF certification program

Contents

- **Introduction to TOGAF**
 - ▶ Introduction
 - ▶ Course Material Overview
 - ▶ The Open Group
 - ▶ TOGAF Basics
- **TOGAF Components**
 - ▶ TOGAF Core Concepts and Components Overview
 - ▶ Introduction to the Architecture Development Methodology (ADM)
 - ▶ The Enterprise Continuum and Tools
 - ▶ The Architecture Repository
- **TOGAF ADM**
 - ▶ ADM Guidelines and Techniques
 - ▶ Views, Viewpoints, & Stakeholders
 - ▶ Early ADM Phases (Level 1)
 - ▶ Key ADM Deliverables (Level 1)
 - ▶ Building Blocks
 - ▶ TOGAF Reference Models
 - ▶ Later ADM Phases (Level 1)
 - ▶ Architecture Governance

Recommended Participants

- Individuals who require a basic understanding of TOGAF 9
- Professionals who are working in roles associated with an architecture project such as those responsible for planning, execution, development, delivery and operation;
- Architects who are looking for a first introduction to TOGAF 9
- Architects who want to achieve Level 2 certification in a stepwise approach

Prerequisites

A prior knowledge of Enterprise Architecture is advantageous but not required.

Course Format

The course uses a stimulating mix of instructions, workshops, quizzes, discussions and a practice-exam.

Duration

Training: 2 days

Materials Provided

- Course reference manual containing copy of course slides, support documents, quizzes and answers
- Practice exam
- Course Certificate

Practice Exam

A practice examination is part of this course. The practice exam aims to help participants in passing the certification exam.

Certification Exam

This training course prepares participants for TOGAF 9.1 Foundation (Level 1) examination. The exam comprises 40 questions in simple multiple choice format. 55% or 22 points out of 40 are required to pass this exam.

Please note that the certification exam is not part of this training course. The certification exam can be attempted at any Prometric center.
